

# NEW CZECH PERFIN

There is a new Perfin from Czechoslovakia.

Vojtech Maxa (#933) reports that the Perfins Society of Czechoslovakia, headquartered in Prague, has acquired its own perforator and its own Perfin, a "P" enclosed in a circle, as illustrated above, left.

Maxa reports that it is the first new Czechoslovak Perfin to be issued in some years and that it is quite likely the last Czech Perfin which will be issued, since there is little use for Perfins these days.

Maxa has been kind enough to supply a limited number of copies of the Perfin to Secretary Floyd Walker, who will pass one along to any member who provides a stamped self-addressed envelope. Write Walker at Box 82, Grandview, MO 64030.

And members who want an example of the Perfin on cover may send two international reply coupons to Vojtech Maxa, P.O. Box 50, Prague 170 00 Czechoslovakia, and receive in return an airmail cover bearing three of the Perfins and the Czechoslovak Society's rubber-stamp cachet. The two IRCs barely cover the cost of postage and envelope, so please be sure to enclose them with your request. No cash or stamps, please. The IRCs are available at your local postoffice.
